

Remote monitoring of IT Infrastructure

EcoStruxure IT Expert from Schneider Electric Instant visibility to critical infrastructure health

Remote vendor-neutral monitoring with EcoStruxure IT Expert

EcoStruxure IT Expert helps you manage your IT equipment for Local Edge, Distributed IT, and Data Center.

IT Expert synthesizes performance and alerts data into proactive recommendations, and enables secure, wherever-you-go visibility and control.

Gain full visibility into the health of your IT infrastructure from anywhere, improve its performance, and mitigate risk with EcoStruxure IT Expert.

FREE TRIAL NOW EXTENDED FROM 30 TO 90 DAYS Visit www.ecostruxureit.com to learn more and get started.

Multi-site remote management

Maintain an overview of your entire physical infrastructure – including lights out sites.

Asset Health Assessment

Optimize your infrastructure by running assessments on your critical assets, including UPS health checks and battery wear, with recommended next steps.

EcoStruxure IT app

Stay connected to your IT infrastructures with live data & alerts on your smartphone.

Life Is On

Key functionalities

Available in the free trial

Inventory

Monitor an extensive range of Schneider Electric and 3rd party devices.

The inventory gives you visibility into device details, and provides you with a quick overview of: Input/ouput power, balance, runtime, and more!

Device Management

Update the firmware on APC devices and easily deploy device settings to a large number of identical devices from anywhere in the world without downtime.

Control Contro Control Control

Customizable dashboards

Design your own dashboard in IT Expert and get an instant overview of the most important information to you. Interested in a specific location or site? You have the ability to drill down and create location-specific dashboards.

Alarms & push notifications

Receive alarm notifications in the event of an incident directly on your smartphone with EcoStruxure IT App or by email.

Lower alarm noise by muting specific or all alarms related to a device, from an hour to up to a week.

Assessments

Get insights from the health score attributed to your APC UPS and receive recommendations on how to improve it.

EcoStruxure IT Expert subscribers will also have access to additional assessments on UPS load , alarm report , active lifespan alarms, and the device security. The latter provides you with visibility into old firmware, outdated hardware, and vulnerable configurations.
